

Pin Design Contest 2017

Pin Design Number and Name	Pin Design and Explanation
1) Diamond Head	<p data-bbox="1036 457 1404 653">I draw the profile Diamond Head because it is a well known landmark in Hawaii. I also drew the waterfall and the palm tree because Hawaii is known for having so many of them so I think they represent our state well.</p> 
2) Hawaiian Islands	<p data-bbox="987 1045 1360 1213">I chose to draw all of the Hawaiian islands to represent our state. I colored them with their islands colors which represent all of the cultures in our 'ohana.</p> 

3)HOSA Hibiscus

For my design I incorporated symbols such as: the rod of asclepius, an open book, the hibiscus and the Hawaiian islands. HOSA educates future health professionals. I pursued this idea by placing the rod of asclepius above an open book. The book represents learning and the rod represents medicine. I incorporated the Hawaiian islands onto the snake to represent the unity of Hawaii. The islands may be separated but they all represent the state of Hawaii. I placed the states flower, the yellow hibiscus, to further emphasize a Hawaiian feel. I also colored the rod of asclepius and the book in HOSA's colors. The snake is navy blue, the rod is white, and the book is maroon. I made the snake blue because it has the islands on it so it can represent unity. The book is red so that it adds more color than if it was white.

4) Band Aid

Since we are future health professionals, I wanted to design the pin as a band aid because growing up as a child a band aid is one of the basic health symbols. We are striving towards becoming future health professionals, so I think it's a perfect symbol with a youthful touch. I chose to outline the band aid maroon because it's one of our HOSA colors. The HOSA Hawaii logo features navy blue lettering.

5) Hawaiian Monk Seal

For this year's HOSA pin, I chose the Hawaiian Monk Seal to represent Hawaii because it is native to our islands and is a playful creature that is loved by many. Our efforts to help save our endangered friend can relate to our efforts in adding more members to our HOSA community. The surfboard the seal is on explains that HOSA has time for both work and play. We not only know how to get work done, but also have a little fun. Lastly, a yellow hibiscus, our state flower, is placed on the seal to show pride for our beloved state. Overall, this adorable pin represents our happy culture we bring from Hawaii.

6) Conch Shell

Knowledge is a journey, as we navigate through turbulent waters to reach our final destination. The conch shell exhibits our "Aloha" spirit welcoming travelers to the islands. Hawaii HOSA members are resilient, adventurous, capable, dreamers, productive and resourceful. They follow the stars to reach their

	ultimate goal, possessing the strength to meet the challenges of their ancestors.
